LETTER OF RECOMMENDATION

Date: 29th July 2026

To Whom It May Concern,

This is to certify that **Malhar Nilesh Malap** successfully completed a three-month project-based engagement with **Asynk** as a **Java Backend Developer** from **1st April 2026 to 30th June 2026**.

During his association with Asynk, Malhar contributed to the development and maintenance of backend systems using **Java and Spring Boot.** His responsibilities included developing RESTful APIs, implementing business logic, working with databases, debugging backend issues, and supporting the integration of backend services with frontend applications.

He demonstrated a good understanding of Java programming, object-oriented concepts, Spring Boot architecture, API development, and database operations. Malhar approached the assigned project requirements with sincerity, attention to detail, and a willingness to learn and improve.

Throughout the engagement, he maintained regular communication with the team and worked responsibly toward completing the assigned modules and project tasks. He was able to understand technical requirements, coordinate effectively with team members, and contribute positively to the overall development workflow.

We appreciate Malhar's contribution to Asynk and believe that the practical experience gained during this project will support his continued growth in Java backend development and software engineering.

We wish him every success in his future career and professional endeavours.

Warm regards,

Aniket Jha
Founder & CEO
Asynk
